4.3.4 - Institution has facilities for e-content development:
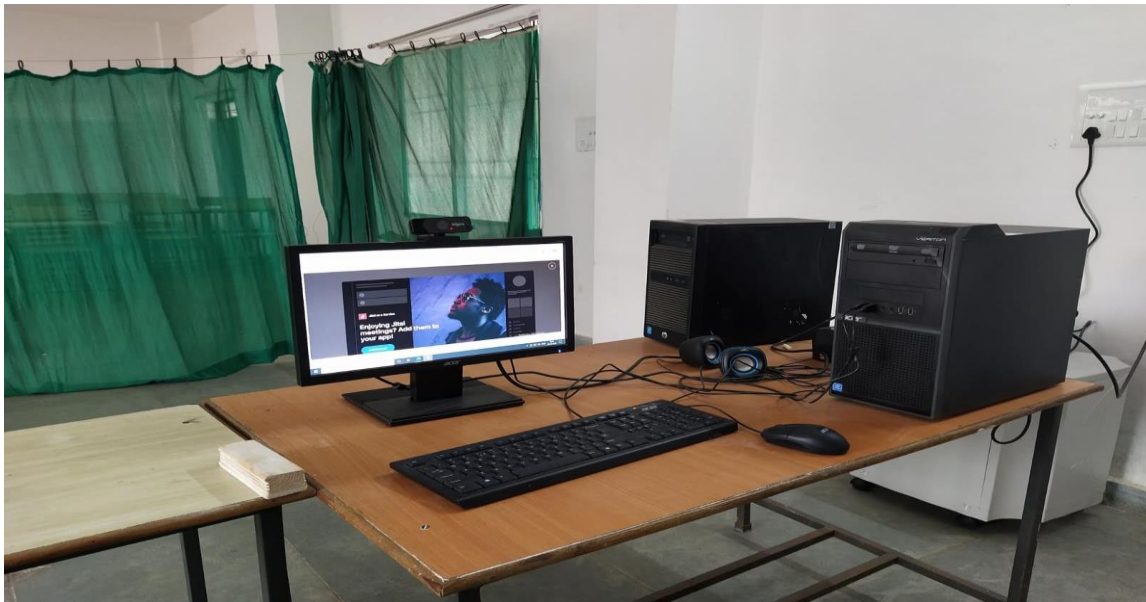

College utilizes lecture capturing systems to record and store lectures, presentations, and educational content for students to access remotely. This technology allows for the seamless recording of classroom sessions, ensuring that students can review the material at their convenience.

By leveraging lecture capturing systems and mixing and editing software, colleges can develop high-quality e-content that is engaging, interactive, and accessible to students, thereby enhancing the overall learning experience and promoting educational excellence.
